TECH & COMMS · CRAWFORD UNIVERSITY

Order of Programme

Where Communications Meet Technology

Thursday, 26 November 2026 · Legacy Hall, Crawford University · 2 hours

Times assume a 10:00 AM start. If the start time changes, every item moves by the same amount. The three talks run back to back with no questions after each; all questions are taken from the floor in the open Q&A at the end.

9:30–10:00	30	**Arrival, registration and photo wall** Before the 2-hour programme. Music playing; students take photos at the backdrop and drop raffle slips.	Ushers / TCBR team
10:00–10:07	7	**Welcome, opening prayer and recognition of guests** Sets the tone: honest conversations, not a lecture. Explains how questions work (all held for the open Q&A at the end).	Host: Samuel Ogundeji
10:07–10:12	5	**Goodwill message** Optional second message from the Crawford University Alumni Association, if time allows.	Head of Department, Mass Communication (or a representative)
10:12–10:17	5	FUN **Icebreaker: "School vs Reality" hands-up poll** Quick statements; students raise hands or stand. See fun idea 2.	Host
10:17–10:32	15	TALK **Talk 1: Communications: School vs Reality** Topic 01.	Gabriel Ntoka
10:32–10:47	15	TALK **Talk 2: Media Monitoring, Evaluation, Intelligence & Social Listening, and AI in Communications** Topic 02. A team member introduces Samuel and keeps time during this talk.	Samuel Ogundeji
10:47–10:50	3	FUN **Energiser: "Spot the fake headline"** Two quick rounds on the screen. See fun idea 4.	Host
10:50–11:05	15	TALK **Talk 3: Building a Personal Brand** Topic 03. Ends with the one-week challenge.	Onaopemipo Famori
11:05–11:30	25	PANEL **Panel session** Questions across all three topics: building a media business, and where communications can take you.	Barnabas (Jet Media) and Samuel Jegede (humanitarian communications); moderated by the host
11:30–11:50	20	Q&A **Open Q&A (in the hall)** Students ask from the floor with a roving microphone. Take questions in groups of three, keep answers short, and give the "Best question" prize.	All speakers and panelists; host moderates

11:50–12:00	10	**Closing: recap, raffle, vote of thanks and group photo** Recap the three takeaways, invite students to register their friends' schools at tech-and-comms.vercel.app, draw the raffle, then the group photo.	Host; vote of thanks by a student representative
10:00–12:00	**120**	**Total: 2 hours**	

01 Notes for the day

- Talks are 15 minutes each. The speaker concept notes say "about 20 minutes, followed by questions"; please tell the speakers it is now 15 minutes, with questions held for the open Q&A.
- Show a time card to each speaker at 5 minutes and 1 minute remaining.
- Two roving microphones for the Q&A; ushers bring them to students. Repeat each question into the main microphone so everyone hears it.
- A team member introduces Samuel Ogundeji before Talk 2 and keeps time while he speaks.
- If the programme runs late, take time from the Q&A first, then the energiser, not from the talks or the panel.
- Load all slides on one laptop before the start and test the screen, clicker and microphones.

02 Fun things we could do

Pick the ones that fit the budget and the hall. Items 2 and 4 are already in the programme.

1	**Tech & Comms photo wall** *Before the start and after the close*	A printed backdrop in the brand colours with the logo, "Where Communications Meet Technology" and the event hashtag, plus a few hand-held frames ("Future PR Lead", "Media Intelligence Analyst", "Building My Brand"). Gives students something to post the same day.
2	**"School vs Reality" hands-up poll** *Icebreaker, 5 mins*	The host reads statements ("I have a LinkedIn profile", "I know what media monitoring is", "I have done an internship") and students raise hands or stand. It warms the room and shows the speakers who is in front of them.
3	**Free LinkedIn headshot corner** *Arrival and after the close*	One photographer, a plain wall and a ring light. Students leave with a usable profile photo, which ties straight into Talk 3. Send photos by email or a shared Drive folder after the event.
4	**"Spot the fake headline"** *Energiser, 3 mins*	Show two headlines on the screen (one real, one made up) and students vote by cheering. A fun lead-in to media literacy and the media intelligence talk.
5	**Headline rewrite challenge** *During or right after Talk 3*	Students rewrite their LinkedIn headline on a card or in the event group chat; Onaopemipo picks the best three for a small prize.
6	**Hashtag pulse on screen** *Throughout*	Students post with the event hashtag and the team shows a simple live count or word cloud on the screen during breaks. A live example of social listening from Talk 2.
7	**Raffle** *Drawn at the close*	Slips collected at arrival. Prize ideas: a one-on-one personal-brand or CV review, a mentorship call with a speaker, TCBR merchandise, or data bundles.
8	**"Best question" prize** *Open Q&A*	Speakers pick the best question from the floor. It encourages thoughtful questions and gets shy students talking.

9	**"Next campus" wall** *Arrival and close*	A board where students write which school Tech & Comms should visit next, with a QR code to tech-and-comms.vercel.app to register. Feeds the registration drive.
10	**Music and a hype playlist** *Arrival, transitions and the close*	Upbeat Afrobeats or amapiano between sessions keeps the energy up while speakers change over.
